Our specialties include pub crawls, factory tours, and hiking.

We can also accommodate group tours by collaborating with organizations such as the All Kyushu Alpine Guide Club, of which we are a member.

Hobbies

- Non-destructive testing of steel products.
- Certified mountain guide (Japan Mountain Guides Association)

自己PR

I'm a true Oita boy, born and raised here in Oita prefecture in Kyusyu Island. Since entering the workforce, I've been wandering around a bit, including overseas. I'm currently involved in a wide range of activities, including the steel industry. When it comes to outdoor activities, I enjoy a wide range of activities, both within and outside the prefecture, and domestically, mainly on weekends. Let's touch the real experience.
