### Tour Specialties

I particularly enjoy working for: company tours / production line tours, sightseeing tours, calligraphy/tea ceremony/kimono-wearing experiences (hold a degree in calligraphy, but tea ceremony and kimono-wearing skills are at a recreational level), and walking tours. I am available for group tours, such as cruise ship tours, as well as private tours.

### Hobbies and Skills

My hobbies include reading, music, cooking, and gardening. In my free time, I enjoy spending time outdoors surrounded by flowers and trees. My specialties include sharing trivia about Japanese culture and explaining manufacturing processes.

## Self Introduction

I am a bookworm, a keen walker, and a great admirer of nature! I am passionate about meeting new people, and I'm equally happy to accompany you on your quest to discover or for a slow, tranquil stay here. Having worked with non-Japanese people for more than 30 years in Japan, I'm used to being asked so many questions about Japan, and I particularly enjoy and pride myself on answering such "Why" questions about Japan! Whilst serving as an interpreter and guide is naturally important, I also wish to be with you as a little goodwill ambassador from Japan!
